SKILLS

JavaScript, Node, ES6, HTML, CSS, Express, React, Redux, JSX, SQL, PostgreSQL, PSequel, AJAX, RESTful API, DOM, Github, GIT

PROJECTS

Caffeine Intake Tracker – https://caffeine-intake-tracker.herokuapp.com/
- Designed and developed a wellness app that helps people become more aware of their caffeine intake along with their mood and sleep levels.
- Developed with React, Postgres, Express, and CSS/HTML.

Feathers – https://feathersapp.herokuapp.com/
- Designed and developed a travel buddy matching app that connects solo female travelers.
- Led a team of four, enforcing code review and resolving arising GitHub conflicts.
- Used React, Express, and SQL to create a sign-up/login page and a feature that allows users to browse and filter other app users.

NeighborGood – https://neighborgood.netlify.com/
- Designed and developed an app that connects apartment seekers to their ideal neighborhood.
- Served as project manager on a four-person team for a C4Q Hackathon.
- Utilized NYC Open Data API to retrieve recent 311 complaints in NYC and map the data to a Google Map with individual markers for each complaint.
- Developed front-end components with React, CSS-Flexbox, and Google Maps API.

Meme-ddit – https://meme-ddit.netlify.com/
- Developed a clone of the web app Reddit, but for usage of memes. Allows the user basic functions of viewing content, adding content and commenting.
- Built with React and Redux to handle component navigation, functionality, and user interaction.

EXPERIENCE

C4Q (Coalition For Queens), Long Island City, NY — September 2017 – Present
Full Stack Web Development Fellowship
- Enrolled in an intensive 9 month, Google-funded software engineering fellowship with a 9% acceptance rate (out of 1500+ applicants) whose graduates are prepared with both technical and professional skills and have been hired as developers at leading companies such as Pinterest, JP Morgan, and Spotify. Projected graduation: June 2018.
- Gained hands-on experience with ReactJS, NodeJS, Git/GitHub, Data Structures, Algorithms, APIs, and tech principles and culture via both team/individual projects, code reviews, and pair programming.

Broker Genius Inc., Valley Stream, NY — June 2016 – August 2016
Operations Analyst Intern
- Assembled sales leads to target potential clients, which helped contributed to 30% client base growth
- Analyzed and organized data for company database and created data analysis reports for clients
- Coordinated with graphic designers to prepare marketing materials for business conferences
- Collaborated with developer team to design new UI and successfully launched brand new Broker Genius website which increased visitors by 25%.

EDUCATION

New York University, New York, NY — August 2013 – May 2017
Bachelor of Arts in Economics,
Business Studies Minor (NYU Stern School of Business)
