https://github.com/doriguzman

SKILLS

Javascript, React, Redux, ES6, Node, JSX, Express, PostgreSQL, HTML, CSS, Git, Github, SQL, Webpack, Bootstrap, Passport

PROJECTS

Feathers - https://github.com/doriguzman/capstone

- Worked as part of a team to develop a travel buddy matching app that connects solo female travelers.
- Scrum Master using an agile methodology to hit our weekly sprints and set git flows.
- Used React, Express, and SQL to create a sign-up/login page and a feature that allows users to browse and filter other app users.

NeighborGood - https://github.com/doriguzman/Neighbor-Good

- Designed and develop an app that connects apartment seekers to their ideal neighborhood.
- Project Managed a four-person team for a C4Q Hackathon.
- Utilized NYC Open Data API to retrieve recent 311 complaints in NYC and map the data to a Google Map with individual markers for each complaint.
- Developed front-end components with React, CSS-Flexbox, and Google Maps API.
- https://neighborgood.netlify.com/

Meme-ddit - https://github.com/doriguzman/Meme-ddit

- Developed a clone of the web app Reddit, but for usage of memes. Allows the user all basic functions of viewing content, adding content and commenting.
- Built with React and Redux to handle component navigation, functionality, and user interaction.
- https://meme-ddit.netlify.com/

InstaClone - https://github.com/doriguzman/insta-clone

- Worked as part of a team to build an Instagram web app clone.
- Developed with React, Postgres, Express, and CSS/HTML

EXPERIENCE

C4Q (Coalition For Queens), Long Island City, NY   September 2017 - Present
Full Stack Web Development Fellowship

- Enrolled in an intensive 9 month, Google-funded software engineering fellowship with a 9% acceptance rate (out of 1500+ applicants) whose graduates are prepared with both technical and professional skills and have been hired as developers at leading companies such as Pinterest, JP Morgan, and Spotify. Projected graduation: June 2018.
- Gained hands-on experience with ReactJS, NodeJS, Git/GitHub, Data Structures, Algorithms, APIs, and tech principles and culture via both team/individual projects, code reviews, and pair programming.

Broker Genius Inc., Valley Stream, NY   June 2016 – August 2016
Operations Analyst Intern

- Assembled sales leads to target potential clients, which helped contributed to 30% client base growth
- Analyzed and organized data for company database and created data analysis reports for clients
- Coordinated with graphic designers to prepare marketing materials for business conferences

EDUCATION

New York University, New York, NY   August 2013 – May 2017
Bachelor of Arts in Economics,
Business Studies Minor (NYU Stern School of Business)
